The background features a transition from a dense, chaotic tangle of thin lines in black, dark red, and grey on the left side to a series of smooth, parallel, wavy lines in a teal color on the right side. The text is centered in the middle of the image.

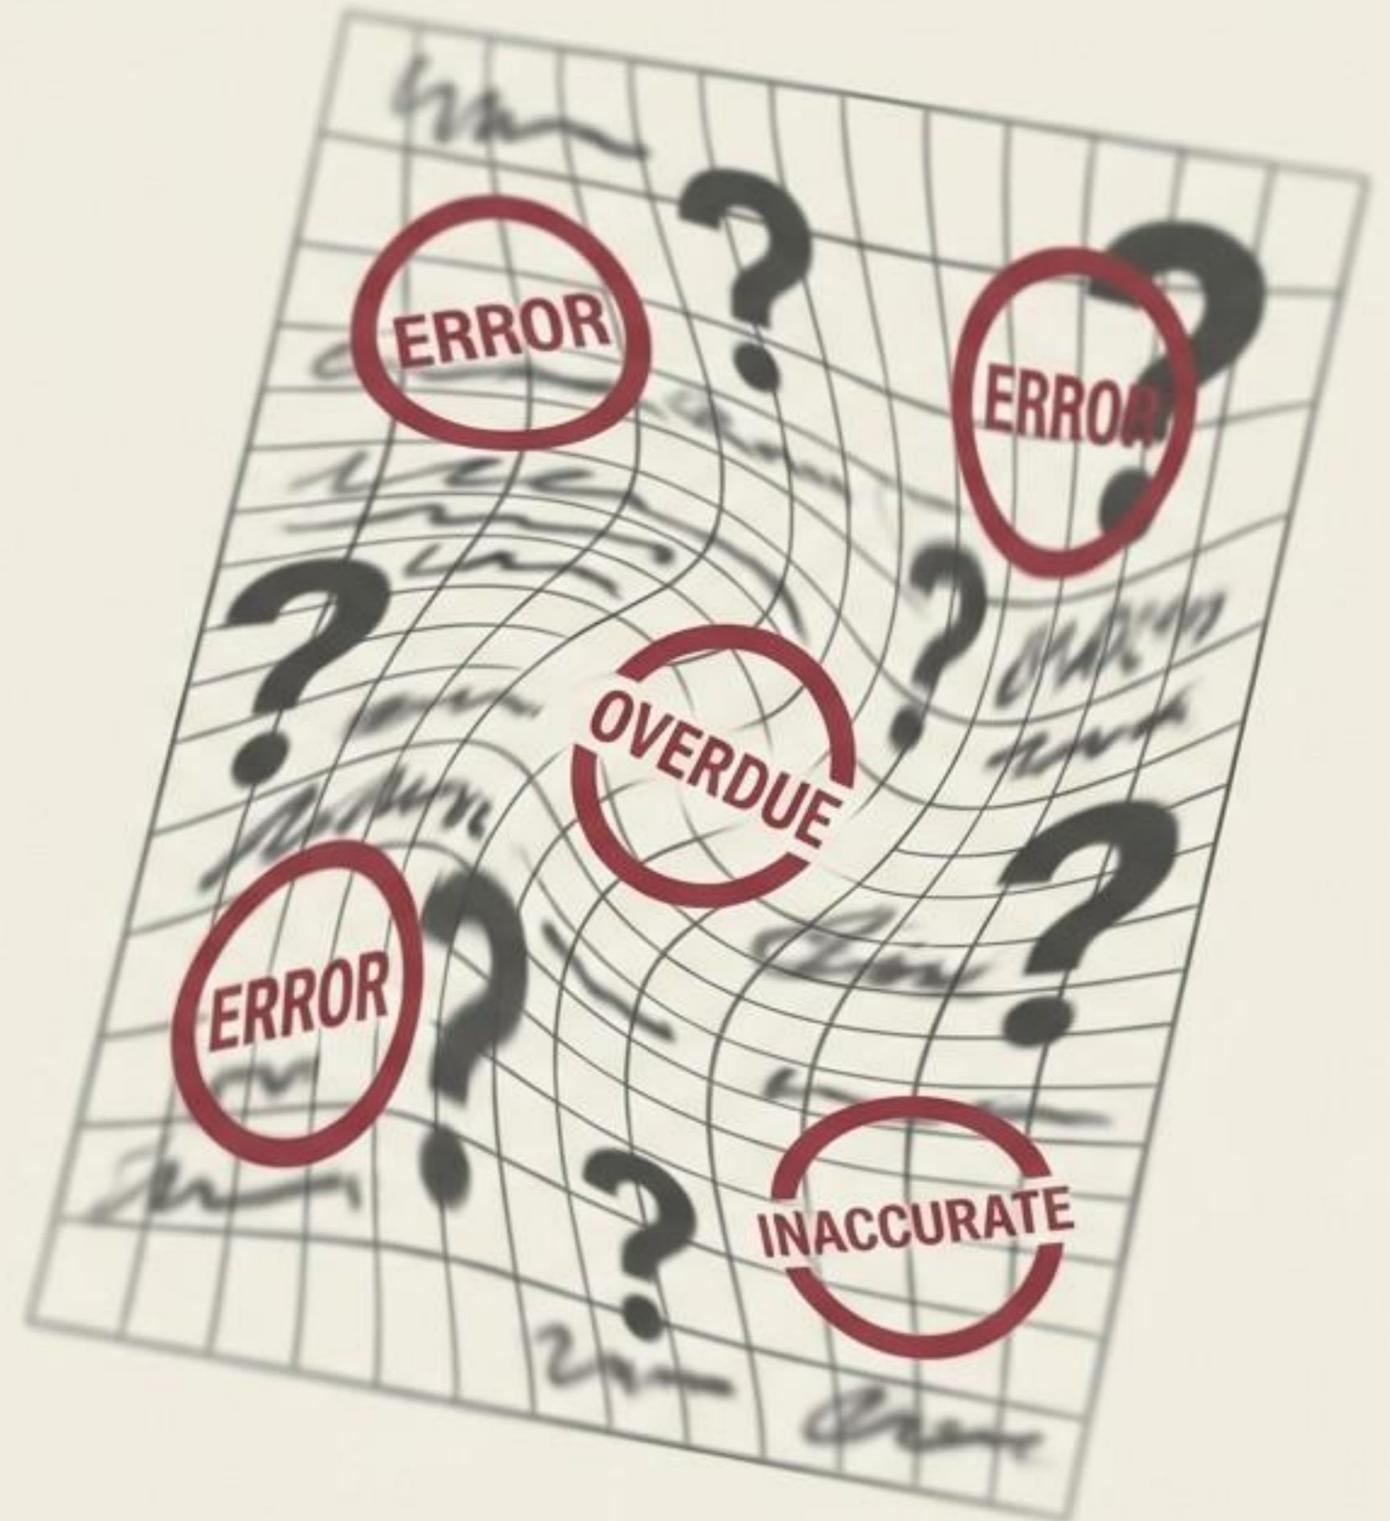

From Financial Fog to Strategic Clarity

A Case Study in Bookkeeping Transformation
and Workflow Optimization

A Business Operating in the Dark

A client faced a critical situation with over a year of neglected financials, putting their business at risk.

- **12+ Months** of unreconciled books
- Inaccurate reports made understanding **cash flow impossible**
- Inconsistent expense categorization and missing documentation
- **Imminent tax filing risk**

The Methodical Path to Financial Order

I implemented a comprehensive cleanup and systemization process to rebuild the financial foundation from the ground up.

Foundational Cleanup

- Performed full cleanup of historical bookkeeping.
- Corrected miscategorized expenses & duplicate entries.
- Created missing journal entries and fixed opening balances.

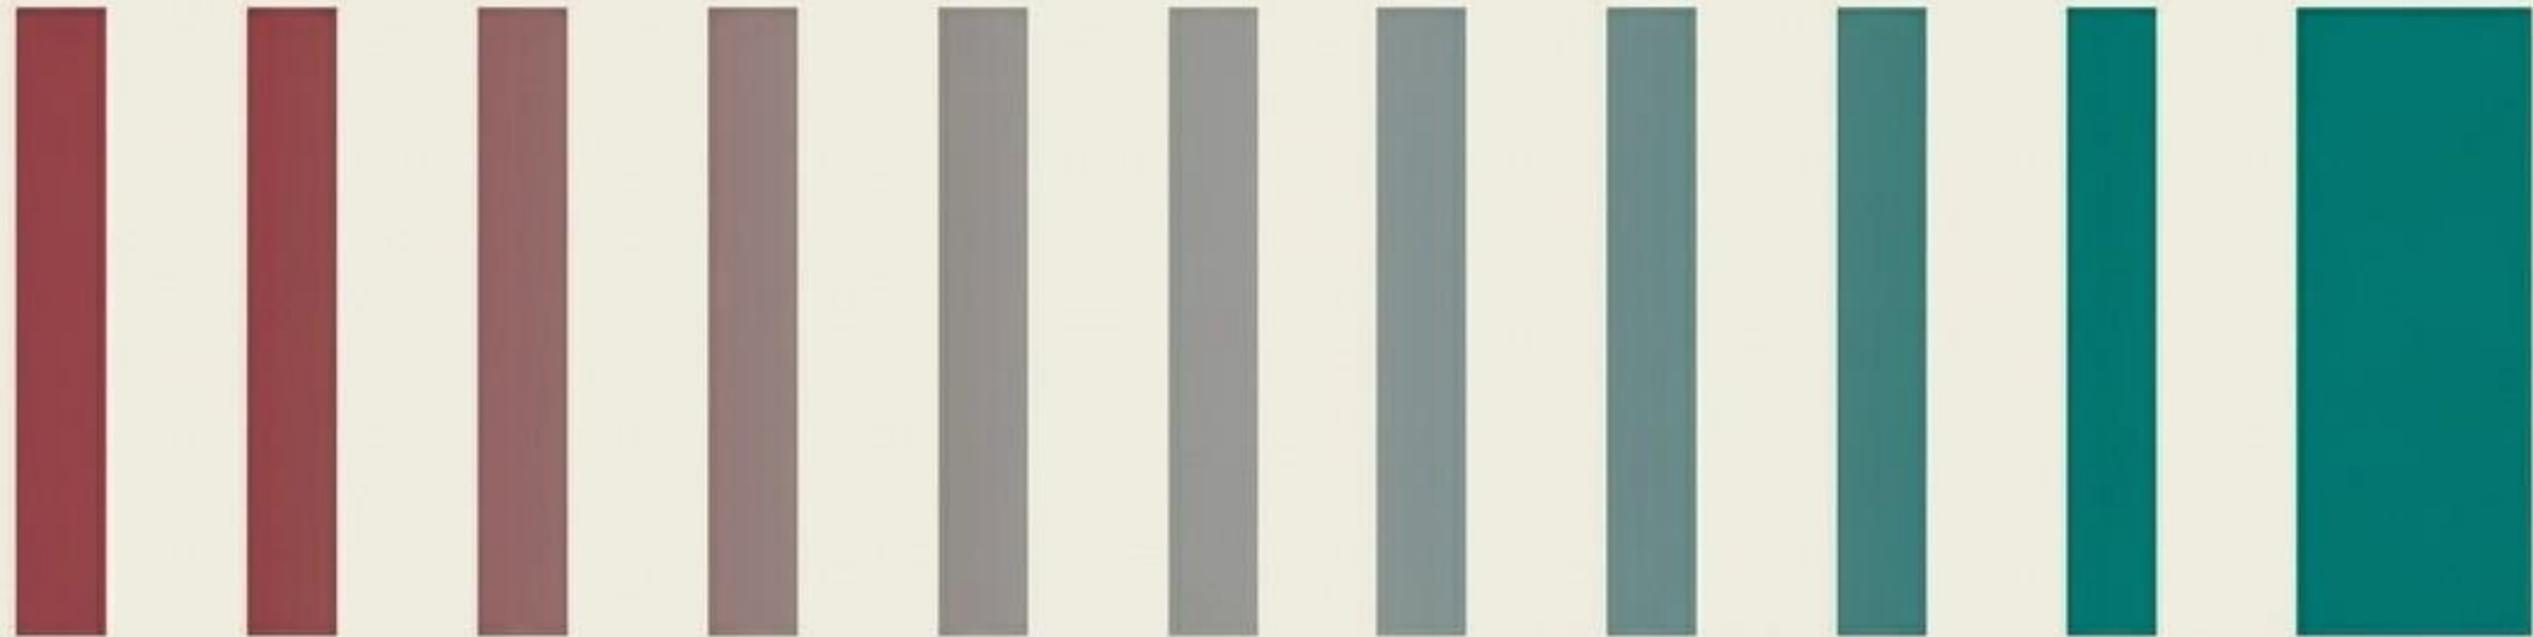

System Standardization

- Completed bank, credit card & PayPal reconciliations.
- Standardized the chart of accounts for consistency.
- Delivered accurate P&L and Balance Sheet reports.
